# Batyline | Chill

## Batyline Eden

**Smart:** un tessuto compatibile non solo con le applicazioni di installazione in tensione (sling), ma anche con il rivestimento di cuscini

**Textile look:** il filato strutturato dell'intreccio conferisce al tessuto un tocco morbido e un aspetto tessile

**Robust:** il tessuto Batyline ad alte prestazioni

## Batyline Elios

**Morbidezza e comfort:** il filato floccato nell'intreccio garantisce la morbidezza e il comfort del tessuto.

**Robustezza:** tessuto Batyline ad alte prestazioni con eccezionali proprietà di resistenza all'abrasione (50.000 cicli di test Martindale) per applicazioni su imbottiti o installazione in tensione (sling).

## Versioni impermeabili

Batyline Eden e Batyline Elios sono versioni impermeabili con una pellicola protettiva sul retro del tessuto, ideali per le applicazioni outdoor più impegnative.

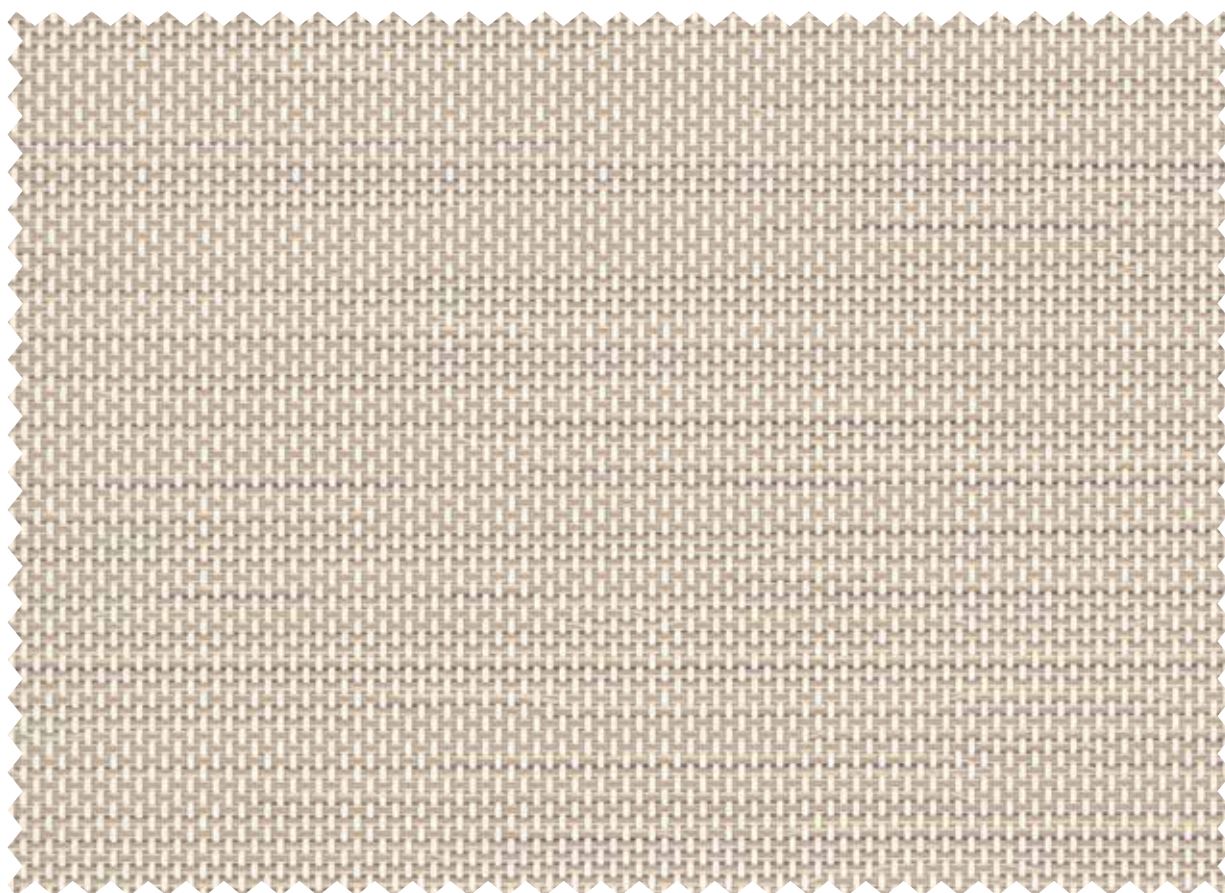

# Batyline | Chill

Gli utenti di oggi sono sempre più alla ricerca di momenti accoglienti e rilassanti nei loro spazi esterni. I tessuti della gamma Batyline Chill soddisfano questa esigenza di comfort sensoriale grazie alla morbidezza al tatto, all'aspetto tessile e al design contemporaneo. L'elevato livello di prestazioni tecniche dei tessuti garantisce la durata degli arredi.
